

MATTHEW SCHUTZNER

Full Stack Developer

📞 (818)337-8711 @ matthew@schutzner.com 🌐 <https://schutzner.com> 📍 Bakersfield, California

SUMMARY

Self-taught software engineer specializing in JavaScript with an AA in Engineering and a BA in Art, with a concentration in Animation. Has developed robust full-stack software projects while employed in technical support. Seeking paid work experience that utilizes expertise in JavaScript and React.js.

PROJECT EXPERIENCE

Aliasing.Pro

📅 10/2023 - Present

Developer of <https://Aliasing.Pro>, a web application for creating pixel art with retro aesthetics from within any web browser.

- Responsive interface and cross-browser support.
- Advanced selection, dithering, and guide tools.
- Built-in color reduction algorithms for adhering to strict palettes.
- Built on a MERN stack.

Aineko Discord Bot

📅 05/2022 - Present

Developer of a custom bot developed using Discord.js.

- Utilizes asynchronous functions (await/async) to handle concurrent data requests to the MySQL database.
- In-bot currency for collecting unique commands and for card games such as blackjack and poker.
- Features include activity tracking, role menus, and user verification.

Losing is Fun

📅 05/2017 - Present

Author of an interactive webcomic based on Dwarf Fortress. The comic is posted to the Bay 12 Forums and cross-posted to <https://LosingisFun.org/> which is built using PHP.

- Backend for converting BBCode into HTML comic pages.
- Pagination and bookmark features.
- Art created using Adobe Photoshop and Aliasing.Pro.
- Spin-off video game in development using TypeScript and Three.js.
